

WORKSHOP

OXYGEN MINIMUM SYSTEMS IN THE OCEAN: DISTRIBUTION, DIVERSITY AND DYNAMICS

OCTOBER 24 – 26, 2006
HOTEL EL ARAUCANO
CONCEPCION, CHILE

The Faculty of Natural and Oceanographic Sciences, the Department of Oceanography, and the Center for Oceanographic Research in the eastern South Pacific (FONDAP-COPAS) of the University of Concepción, are pleased to announce the Workshop “*Oxygen minimum systems in the ocean: distribution, diversity and dynamics*”, to take place in Concepción, Chile, October 24-26, as an activity that will coincide with the 2006 SCOR (Scientific Committee on Oceanic Research) General Meeting.

The Workshop will bring together scientists and students from many countries into one meeting covering the following areas of oceanography related to oxygen minimum zones and oxygen-deficient waters: physical and chemical oceanography, biogeochemistry, ocean-atmosphere interactions, biology, biodiversity, ecology, paleoceanography, and anthropogenic influences.

The Sponsors of this Workshop are looking forward to welcome you in Concepción!

Structure of the Workshop

The Workshop will consist of invited lectures to be delivered during the first two days, and posters. Posters will be exhibited during the three days of the Workshop; brief poster presentations are scheduled for the last day of the Workshop.

Workshop Registration

Pre-Registration

Participants are advised to register in advance at reduced pre-registration rates by September 1st 2006. Pre-registration fees are:

Students	:	US\$ 50
Scientists	:	US\$ 100
Institutes, Centres & Companies	:	US\$ 200

On-Site Registration

On-site registration will be possible at the Workshop. On site-registration fees are:

Students	:	US\$ 60
Scientists	:	US\$ 120
Institutes, Centres & Companies (General registration)	:	US\$ 250

Fees include a booklet with all abstracts, and a welcome reception on October 24th 2006.

Presentations

Oral Presentations of Invited Speakers

There will be a permanently installed desktop computer with projector at the Conference Hall. Invited speakers should bring their presentations on own data medium (CD – Pen Drive). Slide projectors and/or transparency/overhead projectors should be requested beforehand.

Poster Presentations and Poster Sessions

The final day of the Workshop will be devoted to the brief presentation of posters and their discussion, in parallel sessions. For each poster one numbered poster board in portrait format will be reserved with a clear dimension of 150 cm (width) x 220 cm (height). All the material necessary for attaching the poster to the poster board will be available in the poster area.

We encourage the participation of students and young investigators in the poster session. A limited number of fellowships will be available for students and young investigators.

Abstracts

The deadline for the submission of abstracts is **June 30, 2006**.

Format for Abstracts

- **Extended Abstracts** (for invited speakers only): 4-5 pages, including figures.
- **Poster Abstracts** (for all other participants): 1 page of text.

INVITED SPEAKERS

Yrene M. Astor

Fundación La Salle de Ciencias Naturales,
Estación de Investigaciones Marinas, **Venezuela**

Seasonal variability in the hydrochemical structure of the suboxic waters at the Cariaco Time-series station

Kenneth W. Bruland

University of California, Santa Cruz, **USA**

A review of the chemistries of redox sensitive elements within suboxic zones of oxygen minimum systems

<http://oceansci.ucsc.edu/faculty/bruland.html>

Tage Dalsgaard

National Environmental Research Institute, **Denmark**

Nitrogen cycling in suboxic water columns
